

ABOUT US

Human impact and environmental changes have put a strain on the ecological balance, and the Aquarium works towards preserving the natural environment for future generations. We focus on changing the conversation about conservation from a position of scarcity to that of abundance and from fear to opportunity.

As a not-for-profit organization, our mission is to protect, restore, and inspire conservation of San Francisco Bay and its watershed, from the Sierra to the Sea.

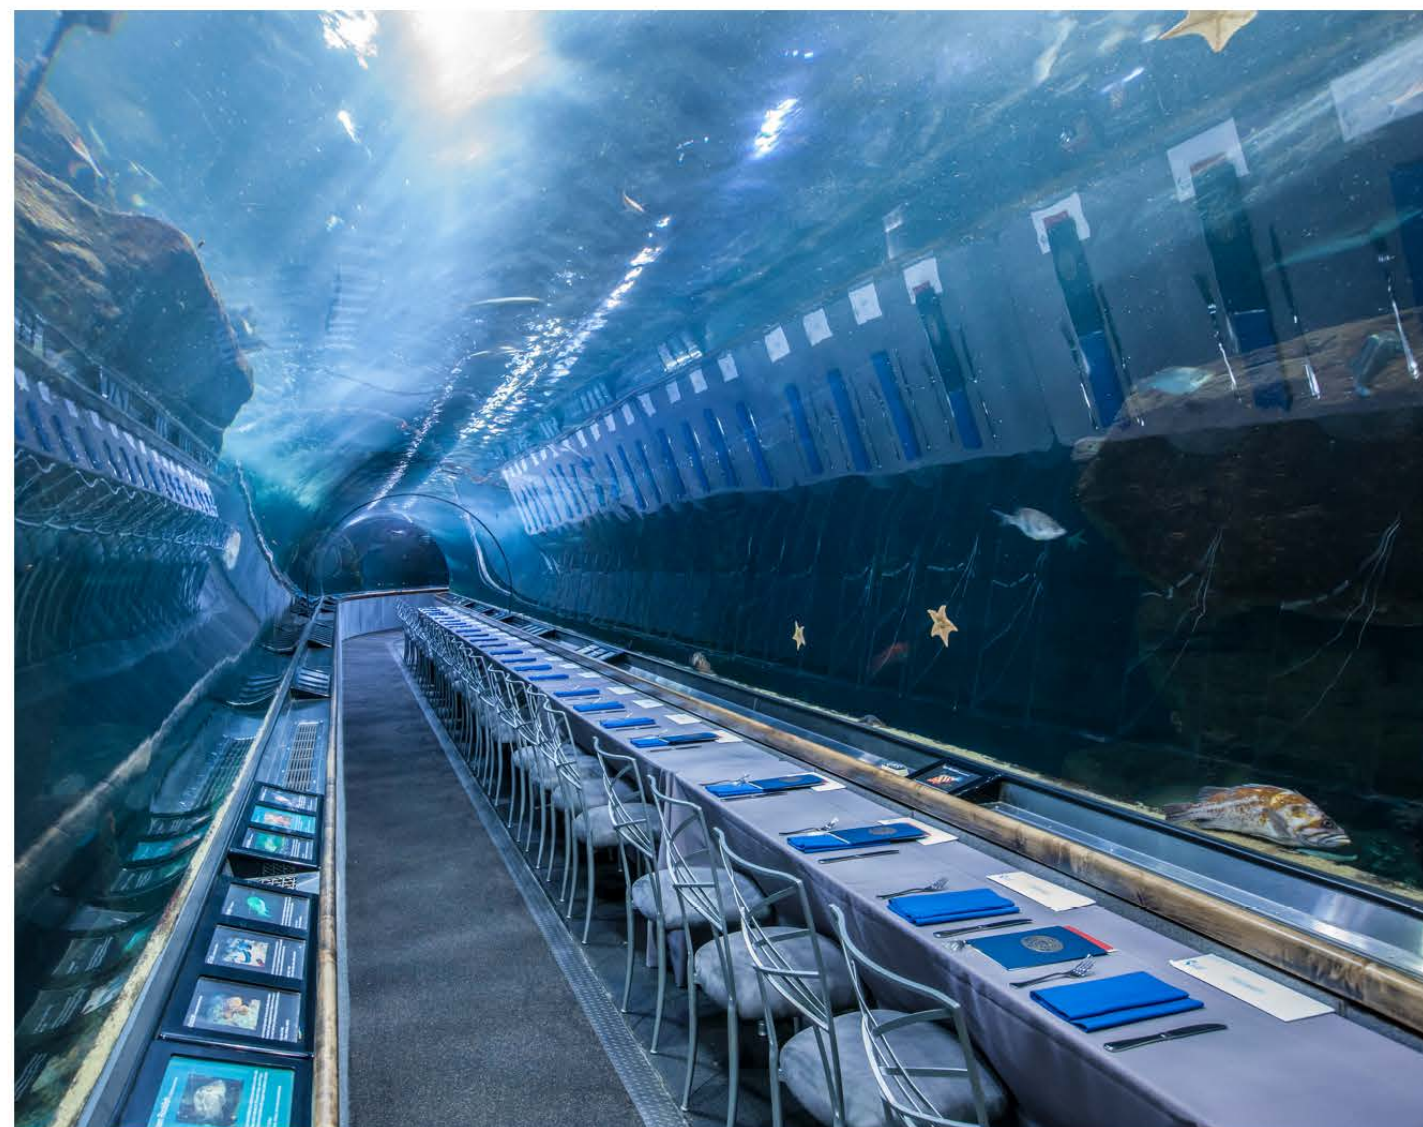

Located on San Francisco's bustling waterfront at PIER 39, the Aquarium hosts 500,000 guests annually. Featuring animals found in Bay area habitats, guests enjoy up-close encounters with more than 20,000 invertebrates, fish, amphibians, reptiles, and mammals. \$0.88 of every \$1 spent at the Aquarium helps fund free educational opportunities for Bay Area Students.

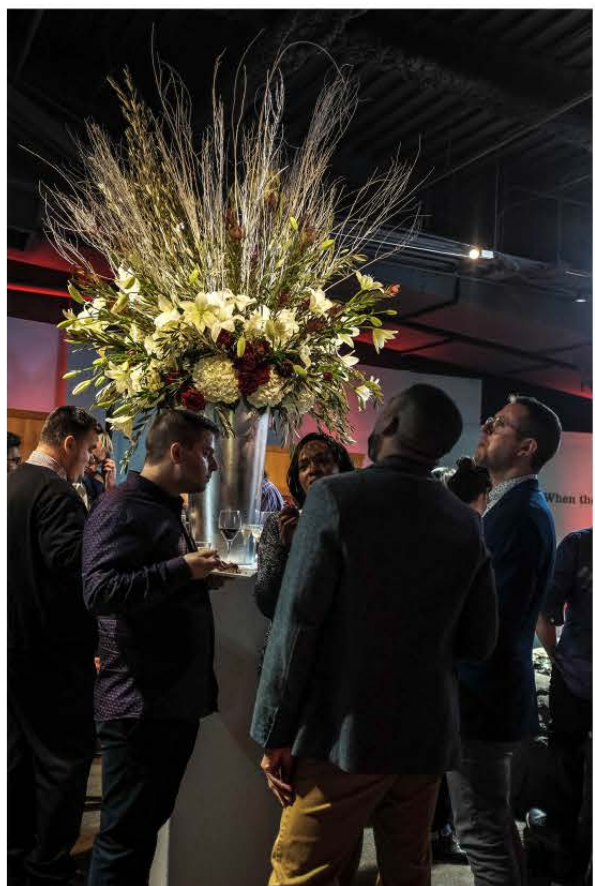

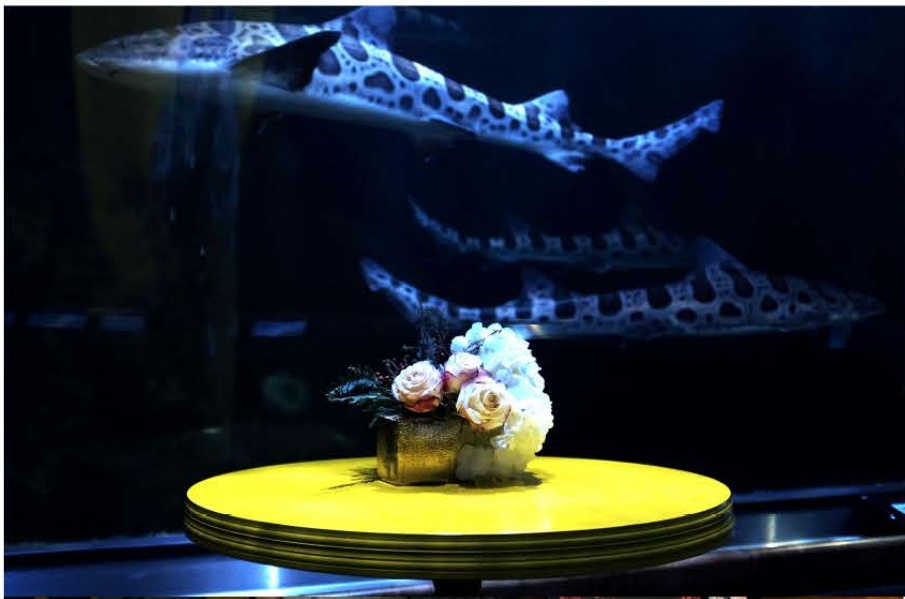

Take your event to
a new level and
dine below the Bay.

Give your guests a
truly memorable
affair and fully
immerse them in
an unforgettable
experience.

An event that gives back

Connecting guests with our
BAY of life
