

Bay Academy

EDUCATION PROGRAMS

Bay Academy provides NGSS-aligned environmental science education programs at multiple locations in San Francisco including Aquarium of the Bay. See our program options below.

Aquarium of the Bay Classroom Programs

- **Between the Tides (Kindergarten):** What is life like between the tides? Discover the amazing animals that thrive in the ever-changing habitat where the waves meet the rocky shore.
- **Salmon! (1st-3rd grade):** Follow the incredible journey of a salmon's life cycle from egg to adulthood. Discover the integral role these extraordinary animals play in the ecosystems of the Pacific Ocean, San Francisco Bay, and the rivers of California.
- **Self-Guided Aquarium Tour (Kindergarten-12th grade):** For groups that only have a short time to visit, a self-guided Aquarium tour is the best option. Self-guided tours are flexible and give your group an awe-inspiring look at the life of San Francisco Bay. Capacity: 35 students
- **Aquarium of the Bay Virtual Tours (Kindergarten-12th grade):** Our live, interactive, virtual tours through Zoom bring the diversity of Northern California marine and terrestrial life right to you—from anywhere with cell service or WiFi.
